NEW QUESTION: 1

When you implement PfR, which IP SLA probe is used to determine the MOS?

- A. packet loss
- B. jitter
- C. throughput
- D. latency

Answer: B

NEW QUESTION: 2

In OUM, what is true about planning?

- A. The evolution plan is created in the Project Startup Phase.
- B. Planning is done in a top down approach.
- C. The plan for the first iteration of the Elaboration phase is drafted In the Inception Phase.
- D. The planning starts in the Inception Phase.

Answer: D

Explanation:

Explanation: The overriding goal of the Inception phase is to gain concurrence among all stakeholders on the lifecycle objectives for the project. The Inception phase is critical for all projects because the scope of the effort, the high-level requirements, and the significant risks must be understood before the project can proceed. The Inception phase is used to kick off a project; review the strategic direction of the business; and confirm, document, and prioritize the high-level business requirements for the project.

It is also the time to begin assembling and integrating the project team, to scope the entire engagement, and develop the initial project plan.

NEW QUESTION: 3

During a discussion with your customer, they state a concern with being able to track power usage and system temperatures in their environment. The discussion leads to customer requirements of being able to at-scale collect power utilization information over an extended period of time (long-term trend analysis). In addition, they want to manage system power by setting power capping limits on their systems. What Lenovo technology should you recommend?

- A. Lenovo XClarity Controller
- B. Lenovo XClarity Energy Manager
- C. Lenovo Capacity Planner
- D. Lenovo XClarity Administrator

Answer: B

Explanation:
