**Answer: E**  
 Explanation:  
 Explanation

The human resources department wanted complete access to employee data stored in the application, and an automated data interchange with their cloud-based SaaS employee management application. However, the favored solution provides read-only access and is hosted onsite.

**NEW QUESTION: 3**  
 Refer to the exhibit.

An administrator noticed that after a change was made on R1, the timestamps on the system logs did not match the clock. What is the reason for this error?

- A. The NTP server is in a different time zone.
  - B. The keyword localtime is not defined on the timestamp service command.
  - C. An authentication error with the NTP server results in an incorrect timestamp.
  - D. The system clock is set incorrectly to summer-time hours.
- Answer: C**
