Top 2V0-31.21 Valid Test Syllabus | Useful 2V0-31.21 Frenquent Update and Unparalleled Professional VMware vRealize Automation 8.3 Reliable Exam Testking

We guarantee to you that the refund process is very simple and **2V0-31.21 Valid Test Syllabus** only if you provide us the screenshot or the scanning copy of your failure marks we will refund you in full immediately.

It can memorize the wrong questions of 2V0-31.21 actual lab questions: Professional VMware vRealize Automation 8.3 you done last time and send you to practice more times, Besides, 2V0-31.21 test simulate cover latest test materials so that it can guide you and help you have a proficient & valid preparation process.

In order to improve the value of your career, you must pass this certification exam, Our 2V0-31.21 dumps torrent: Professional VMware vRealize Automation 8.3 is always

prestigious and responsible.

Agreeable results, Our services can spare you **2V0-31.21 Valid Test Syllabus** of worries about waiting and begin your review instantly, With the simulation function, our 2V0-31.21 training guide is easier to understand and have more vivid explanations to help you learn more knowledge.

All users share one-year after-sale service [2V0-31.21](#) warranty, users can share one-year free update, During nearly ten years, our company has kept on improving ourselves on the 2V0-31.21 study questions, and now we have become the leader in this field.

100% Pass VMware - 2V0-31.21 Accurate Valid Test Syllabus Come to purchase our study guide, We sell latest & valid dumps VCE for Professional VMware vRealize Automation 8.3 only, Purchasing 2V0-31.21 exam training materials, we provide you with free updates for a year.

The training material will enable you to exceed in your professional life with minimum time spent on preparation and maximum knowledge gained, Here, I will introduce our VCP-CMA 2021 2V0-31.21 latest actual dumps for you.

We strongly believe that after using the free demo in this website you will definitely understand why our 2V0-31.21 dumps torrent can be the best seller in the international market.

What's more, if you purchase our VMware Professional VMware vRealize Automation 8.3 examkiller exam cram, you will have one year time to get the free update, As long as you study with our 2V0-31.21 exam questions for 20 to 30 hours, you will pass the exam for sure.

As far as the PDF version of our 2V0-31.21 practice test: Professional VMware vRealize Automation 8.3 is concerned, it has brought us so much convenience concerning the following aspects, The whole process is interesting and happy.

NEW QUESTION: 1

Testlet: Trey Research

[http://technet.microsoft.com/en-us/library/dd772635\(v=ws.10\).aspx](http://technet.microsoft.com/en-us/library/dd772635(v=ws.10).aspx)

You need to identify which tool the help desk users must use to perform administrative tasks. Which tool should you identify?

Case Study Title (Case Study): COMPANY OVERVIEW

Trey Research is a pharmaceutical company that has a main office and two branch offices.

The main office is located in Denver. The branch offices are located in New York and Seattle. The main office has 10,000 users. Each branch office has approximately 200 users.

PLANNED CHANGES

You plan to deploy a new application named App1. App1 is

developed in-house. The binary executables and support files for Appl contain sensitive intellectual property. Users must access Appl through document invocation. The users must be prevented from directly copying or accessing the Appl program files.

EXISTING ENVIRONMENT

The network contains a single Active Directory domain named treyresearch.com.

All servers run Windows Server 2008 R2. All client computers run Windows 7 Enterprise.

The network contains a Web server named Web1 that hosts an intranet site. All users use Web1.

Users report that access to the content on Web1 is slow. You discover that the CPU utilization of Web1 is approximately 90 percent during peak hours.

Microsoft System Center Configuration Manager is used to deploy updates to all of the client computers.

Existing Network Infrastructure

Each office has several file servers. The file servers have a limited amount of storage space. Users access the data on all of the file servers.

Each branch office has a WAN link to the main office. Users in the branch office frequently access the file server in the main office.

Current Administration Model

All servers are currently administered remotely by using Remote Desktop. Help desk users perform the following administrative tasks in the domain:

- Manage printers.

- Create shared folders.

- Manage Active Directory users.

- Modify file permissions and share permissions.

All of the help desk users are members of a global group named HelpDesk.

Business Goals

Trey Research has the following business goals:

- Minimize the cost of making changes to the environment.

- Minimize the cost of managing the network infrastructure and the servers.

REQUIREMENTS

Technical Requirements

Trey Research plans to virtualize all of the servers during the next three years.

Trey Research must meet the following technical requirements for virtualization:

- Simplify the management of all hardware.

- Allocate CPU resources between virtual machines (VMs).

- Ensure that the VMs can connect to multiple virtual local area networks (VLANs).

- Minimize the amount of administrative effort required to convert physical servers to VMs.

Trey Research must ensure that users can access content in the shared folders if a single server fails. The

solution must also reduce the amount of bandwidth used to access the shared folders from the branch offices.

Trey Research must meet the following technical requirements for the intranet site:

Improve response time for users.

Provide redundancy if a single server fails.

Security Requirements

A new corporate security policy states that only Enterprise Administrators are allowed to interactively log on to servers.

User Requirements

Users report that it is difficult to locate files in the shared folders across the network. The users want a single point of access for all of the shared folders in the company.

A. Remote Assistance

B. Remote Server Administration Tools (RSAT)

C. RemoteApp

D. Remote Desktop

Answer: B

Explanation:

Explanation

Explanation/Reference:

REMOTE SERVER ADMINISTRATION TOOL

RSAT for Windows 7 enables IT administrators to manage roles and features that are installed on computers that are running Windows Server 2008, Windows Server 2008 R2, or Windows Server 2003, from a remote computer that is running Windows 7.
